

Advanced Management

We help small businesses grow

Is medical billing and coding getting in the way of managing your practice?

Problem

billing is time consuming, software is expensive, cumbersome and difficult. Staff time is a premium.

Solution

local billing and coding services can free you up to practice medicine – not practice paperwork.

Benefits

You'll get paid faster

with accurately coded invoices prepared by seasoned coding team with professional coding service audits.

Your practice will thrive

even in an era of significant changes to healthcare by managing your billing and reimbursement - no matter the size or complexity of your practice.

You won't wrestle with complicated software, or the overwhelming mountain of billing and coding.

You'll have prompt and friendly customer service – and so will your patients!

The Advanced Management team is professional, courteous and incredibly knowledgeable about medical billing.

Easy-to-understand reporting

and custom report reviews for physicians. You'll understand exactly what's happening in your practice without having to manage the details.

Quick enrollment in third party payer programs

like Medicare and Medicaid.

Services that can help you concentrate on medicine and take the burden off your staff:
